

Step by Step: Install SMS Gateway Connector SharePoint Add-in from Microsoft SharePoint Store

Prerequisites

- You require **Site Owner Role (Full Control Permissions)** on at least one **SharePoint Site** to perform this action.
- The user must have a valid email id configured in **SharePoint User Profile (Property: Work Email)**

Steps

- **Launch the SharePoint Site where you are a Site Owner, and Click on Add an App**

The screenshot shows the SharePoint interface for an 'SMS Add-in Demo Site'. The top navigation bar includes 'Office 365' and 'SharePoint'. A settings gear icon in the top right corner is circled in red, with a green arrow pointing to a blue callout box labeled '1. CLICK'. A dropdown menu is open from this gear icon, and the 'Add an app' option is circled in red, with a green arrow pointing to a blue callout box labeled '2. CLICK'. The main content area shows site navigation options like 'Home', 'Notebook', 'Documents', and 'Recent', along with a 'Get started with your site' section containing cards for 'Share your site.', 'Working on a deadline?', and 'Add lists, libraries, and other apps.' A 'Newsfeed' section is visible at the bottom.

- In the Page shown please click on “SharePoint Store”

The screenshot shows the SharePoint 'Your Apps' page. The top navigation bar includes 'Office 365' and 'SharePoint'. The main content area is titled 'Site contents > Your Apps' and includes an 'EDIT LINKS' option. A search bar labeled 'Find an app' is present. On the left sidebar, under 'Your Apps', the 'SharePoint Store' option is circled in red, with a green arrow pointing to it from a box labeled '3. CLICK'. The 'Noteworthy' section displays three app tiles: 'Document Library', 'Custom List', and 'Tasks', each with a 'Popular built-in app' label and an 'App Details' link.

- In the SharePoint Store search for “SMS Gateway Connector”, and click on the Add-in icon
- SharePoint will open the Add-in Installation wizard for you to Add, click on the Add button.

Post Installation

- Once the Add-in is available in your site, it will show in Site Contents.

SMS Gateway Connector Installation Guide

- As soon as you open the **SMS Gateway Connector (SMS Via SharePoint List) Add-in** from your site, the Add-in will perform **Initial-Configuration** by provisioning SMS outgoing and incoming list.

Congrats, Your Site has the Gateway Add-in Installed!
